KINGS **INFOTEK**
conceive • create • care

Who we are..

Kings infotek is an e-Business solution & software development company. A proud member of Kings Group of Companies a renowned name in the field of Fisheries and Sea Food Exports, infra Structure development. Having its presence from 1959, found by Sri.Baby John , our inspiration, Social leader , innovative businessman who contributed great to the development of Kerala during his political career and won millions of Indian hearts especially Keralites.

How we started..

When the in-house IT and web solution needs were growing, in 2007 started our own development center in Cochin with dedicated team of web technology and design members .

And understanding the need of good web solution providers with good service back up, Kings infotek started extending its services not only in Cochin but also for outside clients in India and abroad. Having our own associates in UAE , kings infotek is now providing web related services in middle east.

Why we ?

In today's scenario web presence is not just limited to web identity and much more beyond that. Be it a website , web solution or SEO our technical team takes care to see it is to match well with their line of business and explore the opportunity in their business through effective online presence.

What we Do?

Websites, Web applications, Online promotions, SEO, Web Hosting, Website redesigning, customized software are our service areas where we can associate with you .

Our Services

Website Development

Web Designing, an art of its own right, invariably requires good level of understanding of the concept 'Web', the target audience, the business model, and the ability to create a functional website with good user experience and required information.

At Kingsinfotek.com your web site is designed to feature your product or service according to your own preferences and at the same time to take full advantage of having a website.

Portal Development

We develop user friendly web applications and portals that helps our client to manage their dynamic websites. The back end software will be simple to operate and will help to keep changing the web site data dynamically. Our multi level security enables the admin panel to be secured and 100% self managed.

Search Engine Optimization

Search Engine optimization is another area where we focus and consider website development and SEO are to go together. We take of coding standards and all aspect of SEO make it take top ranking in all major search Engines. Back linking, keywords placing, analyzing the performance periodically for major search Engines.

Web Hosting

Kings Infotek provides hosting solutions in Linux and Windows platform. Our experienced hands will take care of your uptime and corporate mailing solution.

E - Learning & Multimedia Presentation

Interactive E-learning tutorials is another area where we can be thought of . We take care of the instructional designing with great care to make the flow of the e-learning material to perfect.

Software Development

Our high end software for Head Office & Branch integration could be customised according to your needs and requirements and all possible and common errors avoided for maximum efficiency.

Online Marketing

Today's marketing scenario depends on web to great extent. Online product presentation, product/service reviews , online enquiries, online chat and search engine promotions help to reach the target audience in no time. A solid web presence and online promotional activities have become indispensable to any organization. Kings infotek helps in SMS , Email campaigns, Goodgle ads, SEO and ads in other top searched directories, integrating online chat in an effective manner.
